\$2.00 PER YEAR

Recent Operations

By Paul Rardin

Have you heard about the Share Your Car Club? We are organizing such a club in the Pahokee Canal area.

Printed forms will be available within a day or two—in line with you may sign on the dotted line—showing your willingness to participate in such a club.

How does it work? It isn't so complicated. You get together with your neighbors and plan to use one automobile instead of three or four. Plan trips to the grocery store. Plan other trips. Instead of using four cars—work out some sort of plan whereby one can be used one time and another car another time, etc., etc.

It isn't a matter of whether you like the idea or not. It is a request of Uncle Sam that we do this.

Then, too, it will be a good idea to participate in the Share Your Car Club—that is, if you plan to go before the rationing board for extra gas. If you haven't made an effort to join the club—well, maybe, the rules won't cover your case.

It isn't so drastic as it sounds. But, I've an idea that, when you appear before the rationing board—the part of the citizens of the Canal seaboard that restriction would be relaxed somewhat. But, that cooperation is necessary. It is a possibility that the rules and regulations will provide for a little extra gas. If you haven't made an effort to join the club—well, maybe, the rules won't cover your case.

I've had an idea all along—since this gasoline rationing started—that with a little co-operation on the part of the citizens of the Canal seaboard that restriction would be relaxed somewhat. But, that cooperation is necessary. It is a possibility that the rules and regulations will provide for a little extra gas. If you haven't made an effort to join the club—well, maybe, the rules won't cover your case.

Today and tomorrow are the last time for you to apply for gasoline. You will find volunteer workers at the school houses to take your application. Each person will be given an "A" card if you want more for essential use—take home an application blank. Fill out and MAIL to your ration board. Please remember to MAIL the application to your board. It will do you no good to get up the ration board with the form. It must be MAILED.

While we're on the subject of gasoline I might caution you not to cross the ration board if you don't get all the gas you think you're entitled to. They have a book of instructions up there—and it is by that book that gas will be rationed.

Street corner cussing about the actions of the ration board do you a bit of good—except to get a little of the cussiness out of your system. Rules and regulations must be followed. The rules are laid down by Washington and there are penalties for anyone who breaks them.

Some of the wise guys—who go around the first ration deal—will have to think more than twice to get around the new set-up.

MODIFY STANDARDS. A modification of the physical standards, to permit induction in the Army of men over Class 1-B, due to minor defects, will become effective on August 1, 1942, and will result in the induction of a greater quota of men in this category for limited military service, the War Department announced.

BUY WAR BONDS. Some of the wise guys—who go around the first ration deal—will have to think more than twice to get around the new set-up.

BUY WAR BONDS. Some of the wise guys—who go around the first ration deal—will have to think more than twice to get around the new set-up.

Seek Instructors To Study Course For Air Training

Special School Opens August 3 At State University

TALLAHASSEE, Fla., July 9.—Gov. Holland and Colin England, state superintendent of education, appointed Monday for school teachers to attend special courses at the University of Florida next month to give them pre-flight training in the public schools.

About 200 qualified teachers will be needed for the stepped-up program of training students in the public school for advanced work in aviation. Special courses for teachers will be offered in the future, Monday for the first state to establish pre-flight training in high schools. The training "will be of great assistance in the future pilot procurement program of the army air forces," Lovett telegraphed to Gov. Holland.

The public schools will offer specialized studies in mathematics, physics, weather observations, navigation, communication, and other subjects connected with aviation. Completion of these high school studies will equip the students for advanced work in the army and navy aviation programs and in industry.

If America has 300,000 pilots, it must have about 3,000,000 trained ground workers, and the public schools have been called upon to offer training for students in aviation subjects, chiefly physics and mathematics," Gov. Holland and Superintendent England said.

"Qualified teachers are needed if the program is to be successful," they urged county school boards to select teachers to attend the training at the university course.

"This is an important program and we hope that teachers will attend the university course with the quality as instructors in the aviation subjects, chiefly physics and mathematics," Gov. Holland and Superintendent England said.

"Qualified teachers are needed if the program is to be successful," they urged county school boards to select teachers to attend the training at the university course.

Itch Lotion Is Made From Honey

ORLANDO, July 9.—(FNS)—To the average layman, honey is simply "something to eat," or when employed as a descriptive adjective, something to "go out with"—but to bee men and scientists honey is much more, and is an effort to determine every possible use of the product of the busy bee may be put to a group was organized here last week to test the value of the Florida Research Society.

Dr. Lester C. Gill of Bradenton displayed a number of products of the honey bee, including honey, wax, propolis, all purpose salve, face lotion, face pack and honey wood.

Officers elected were Dr. Lester C. Gill, Bradenton, President; Dr. R. P. Hutton of Bradenton, Secretary; and Dr. E. A. Peterson, Orlando, Treasurer.

Hon. Nathan Mayo, Commissioner of Agriculture, spoke at the organization meeting and encouraged the Society in its research effort.

HAS JOB IN CAPITAL. Speder Linsane and Harry Gold, recently commissioned as second lieutenants in the army, are expected to arrive in Pahokee over the week end for a short visit with relatives.

MRS. SIMS BETTER. Mrs. G. Lawton Sims, who underwent an operation in West Palm Beach several weeks ago, is again able to be up and around. Her many friends will wish her a speedy recovery.

MRS. HARRINGTON IMPROVES. Mrs. Roswell Harrington, who underwent an operation in a West Palm Beach hospital recently, is rapidly improving.

Need Money To Erect Honor Roll

The piling have been driven for the Service Men's honor roll to be erected in Pahokee on the canal bank between the old city hall and Nola's store. When a few more voluntary contributions come in work will be started on the monument. There will be no workers sent out to raise funds—because it is a community project and will be financed without any solicitation.

If you have a donation to make to this worthy cause—just drop by the store and hand them the money. There will be no workers sent out to raise funds—because it is a community project and will be financed without any solicitation.

There is a book at the Dragon store in which names of volunteers in Uncle Sam's service are being recorded. If the board is elected and your relative's name is not on the list, come and your name will be added.

Answers To Your Ration Questions

Here are some of the questions being asked about the new rationing program and the answers:

Q. What do I need to take with me in order to get my ration book? A. Only your 1942 automobile license registration card, issued to you when you bought your license. You will be required to show your license certificate.

Q. Suppose I have lost my registration card? A. You can get a duplicate from the license agency.

Q. Don't I have to show the number on my federal ration stamp? A. No. Under a new ruling by the OPA, this stamp is not required to get your ration book but will be required for you to buy gasoline after July 22.

Q. I now have a B-3 card which requires me to show my ration book. Will I get as much under the new program? A. Every owner of a private passenger car will receive a card of card he has now, will be issued an "A" book at the time he registers. It is good for four gallons a week. If you have more than 150 miles a month in his work may apply to the rationing office for supplemental "B" or "C" book.

Q. How do I get an application for a supplemental ration? A. You can get an application form at your registration place. Fill it out at your convenience, then mail it to the rationing office in Pahokee. The rationing board will decide whether you are entitled to extra gasoline.

Q. What do I have to show in order to get a supplemental ration book? A. In general, you must show that you require a car in your work, that public transportation facilities are not adequate or a car is necessary for your work. You must also show that you are a person in riding to work. The other members of your car-sharing club must sign the application.

Q. What about the fellows with "X" cards? A. There are no "X" books in the new program. Most of those who now have "X" cards must register at the schools and file an application for a new gasoline like any other driver.

Q. What about trucks and commercial cars? A. Trucks, ambulances, taxis and other commercial vehicles and other agency or leased by a government do not register at the schools; they apply directly to the rationing board.

Q. Can I start using my new ration book right away? A. No. Its code number cannot be used before July 22.

Q. Suppose I have some punches left on my old card July 22. Can I still use it? A. No. Present ration cards are no good after that date. You might keep it for a souvenir.

Q. How do I get a new ration book? A. You can get a new ration book at the schools or at the rationing board.

Q. How do I get a new ration book? A. You can get a new ration book at the schools or at the rationing board.

Q. How do I get a new ration book? A. You can get a new ration book at the schools or at the rationing board.

BPWC Met On Tuesday Night

Members of the Business and Professional Woman's club met Tuesday night at the home of Mrs. Pauline Boyette in Belle Glade. Ruth Barron was co-hostess. It was the regular monthly business meeting of the club and a large number were in attendance.

The business session presided by Mrs. Pauline Boyette, was held in the club room. Mrs. Barron was named as the transportation committee. It was announced that Paul Rardin, publisher of The Everglades News, will be the speaker at the next meeting to be held in the public library in Pahokee on the night of August 4.

Mrs. Phara Mook was in charge of the program. She presented Miss Eleanor Hearn who in turn presented Barbara Will and Beverly Lutz in a musical program.

Part of the program centered around national defense and war, and members asked what they had done since war was declared to assist in defense. For the best home prize was won by Mrs. Kate Cross.

Make Effort To Roll Trucks

JACKSONVILLE, Fla., July 9.—A general order authorizing the establishment of "joint information offices" with power to modify federal regulations regarding the movement of trucks for trucks and will aid in obtaining loads from trucks returning to home stations from over-the-road trips, McDaniel said.

Previously, the ODT had ruled that a truck could not begin a round trip until it had been loaded 75 per cent of capacity. Under the new regulation, the dispatcher will be empowered to issue a clearance for a truck for which there is no load, or not sufficient load to come up to the 75 per cent load limit.

McDaniel pointed out that the information offices would effect "enormous savings" for truck operators and would serve to speed trucks back to their home bases.

"In some cases, it was realized that a truck might be held several days at some point, waiting for a return load, with consequent loss in efficiency," McDaniel explained. "With the establishment of a dispatching system, the trucks can be moved more easily."

He warned that any state dispatching system would have to be approved by the ODT and that it would have to operate in accordance with federal regulations.

McDaniel said he had been informed by Charles C. Gentry, Jacksonville, secretary of the Florida Trucking association, that the information committee already was working on a proposal to establish dispatching centers about the state, and that the association would follow the ODT's suggestion in the information of such information facilities.

Share Your Car Is New Plan Of Club Being Organized

Paul Rardin Is Named Chairman Of New Club Plan

Pahokee and Canal Point's campaign to organize a Car Sharing Club, in connection with the new OPA gasoline rationing plan for the East Coast effective July 22, was launched today with the designation of Paul Rardin by the local Defense Council to head the program.

The OCD is conducting similar campaigns in more than 3,000 cities and towns throughout the United States, to aid the public in complying with the new rationing requirements.

Motorists in their cars may arrange to share their cars with others, thus reducing the amount of gasoline that must be transported. A motorist needing more gasoline than the minimum ration will be required to form a Car-Sharing club, or have at least three other members, or prove that there is no other way for him to get to work.

Car owners who do not need supplemental rations are also urged to join car clubs to stretch their rationed gas, to aid the public in complying with the new rationing requirements.

The Office of Price Administration has explained that applications for supplemental rations will require details about the use of the car. Applicants who show that they have formed clubs will be relieved of answering questions about the use of the car. Blank alternative means of transportation. Those who have not formed clubs, or have not at least three other members, will be required to show that it was impossible for them to meet this requirement, and that alternative transportation is inadequate, before they can be supplemental "B" or "C" books.

Local headquarters for the Car Sharing Club campaign have been established at The Everglades News office, Canal Point, Phone 2661.

Fahs Clarifies Use Stamps Ruling

John L. Fahs, Collector of Internal Revenue for the State of Florida, announced that he had received clarification on the question of the relationship between the use of gasoline stamps and the motor vehicle use tax and gasoline rationing.

According to the Office of Price Administration, the exhibition of the stamp at the time of registering for the next coupon book will be required. Under the new rules, the owner of the car is required to enter the serial number of his \$5 automobile stamp on the reverse of his coupon book. The regulations require service station attendants to compare the serial number on the stamp, prior to dispensing gasoline.

Mr. Fahs said the stamp must be placed on the motor vehicle use tax, that any use of a car on or after July 1, 1942, without a stamp, or other evidence of payment, would make the owner subject to a fine of \$25.00.

Monthly meeting of the county school board which was to have taken place Tuesday was postponed because of absence of Chairman Carl Widell who has been attending the meeting of the National Association of School Board Members in Denver.

Stop by Nola's in Pahokee and leave your donation to help erect the honor roll for the men in service from the Pahokee-Canal Point area.

LOSING A BILLION

If a person started his own business in the year 1 A. D. with a billion dollars capital, and if this person managed his business so poorly that he lost \$1,000 each day, at the present time he still would have enough capital left out of his original billion dollars to continue in business, losing \$1,000 each day, for almost an additional 800 years, or until the year 2739 A. D.—Acheson (Kan.) Globe.

FBI SPEED-UP

It happened in one of the country's biggest war plants—in the mid-west.

A big, tough worker told a new employee he was turning out too many units a day and had better slow down. Next day the new man upped his output. "We're at war," he explained. The third day, when the new man's production reached another new high, the other worker violently told him he was "out."

"So are you," replied the bullied one. He showed an FBI badge, attached handcuffs to the tormenter and marched him the entire length of the assembly line.—Wall Street Journal.

MYSTERY FUEL

Mystery fuel, so powerful present engines can't take it, may re-shape auto industry's future.

It's still very much in the "hush-hush" stage, but definitely in the cards. A petroleum project, it is far more potent than today's gasoline. A small, high compression engine (possibly of radial design) will be required. This may mean a smaller, lighter, cheaper-to-run auto. War-time aircraft motors are being developed with its development.

Although they've shown some reluctance to scrap 1941 model tools and dies auto makers may be forced to because post-war cars will differ so radically.—Wall Street Journal.

LOOTING THE GOVERNMENT

It seems now that the politicians who have been fighting for years to get a ditch dug across Florida at a cost of unknown millions of dollars are to get their wish.

It seems safe to assume that in all the world's history there has never been a political racket worked in so shameless and highhanded a manner.

Despite the fact that no need for the canals has ever been shown, its promoters have gone doggedly on, scarcely attempting to oppose the mass of evidence against the plan, fighting with the tenacity of a prize-fighter who has become so punch drunk that he moves by sheer inertia.

Probably the country will be able to stand for the canal, but the evidences it displays of the rapacity and ruthlessness of the modern loot-hungry politicians is the worst phase of the whole sordid story.—Arcadia Arcadian.

perious month while great in business organizations and in the military effort to control the process.

If we can produce rubber in from 5 to 6 months by one process as against 18 months by another, and if we can do it with the use of less than half as much critical material, avoid long rail hauls to further clog our transportation problem, and at the same time be using a replaceable material rather than depleting our supply of another—then is God's name, why not do it?

The American people have been both patient and cooperative. They have willingly done everything they have called upon to do and can be depended upon to do a lot more—but they are not going to sit idly by and see their efforts subverted by selfish interests or bureaucratic bunglers.

Cinematic Chatter

By MALCOLM MILLER

Pat O'Brien's wife says he is the kindest and most patient man on earth. We who have seen him and "Cagney" stir up horrors in some of their most vitriolic efforts, are not inclined to agree with Mrs. O'Brien. We know him as a following, blistering, two-fisted scrapper, happiest when Hell is on the loose.

Sunday and Monday Pat comes to the Prince screen, teamed with Brian Donlevy—another toughy noted for his he-man action roles—and Janet Blair—a delightful little Miss Personality—in "Two Yanks in Trinidad," which I recommend for that thrilling feeling. You'll like the story, thrill to the blazing adventure, laugh at the funny situation, and hang onto your hats when the tropic tempests in the form of Janet Blair, Rita across the screen in torrid dance numbers.

Tuesdays offering is an interesting subject. The word "Juke" was coined right in the South, and "Juke box" was known to folks below the Mason and Dixon line long before it was recognized as correct English among New Yorkers. So the Prince Theatre offers on one day stand, Ann Sheridan in "Juke Girl."

"Juke Girl" was a nickname—dance girl, rough, tough and heavy on the wire cracks, and then along came the "right guy," as they always do, and changed the whole set-up.

It's a sensational story of juke-joints, and even though you may never have gone juke, you'll get a great thrill out of this show. Under expert direction, with a full-bodied story and a cast of superb screen actors, how can you miss enjoying every moment.

Wednesday—Thursday "Bonhays" "Copper" heads the double feature bill. It's another one of those operas I don't know a thing about.

ARE there days when it seems that the radio, the ringing of the door or telephone bell, the clatter of dishes, or even the laughter and voices of children nearly drive you frantic—days when you are restless, and cranky?

Do you lie awake nights?

When these hectic days and wakeful nights interfere with your work and take the pleasure out of life for you, try

know nothing about it, therefore, I am not for or against it.

Teamed with this one comes "rusty voiced" Eugene Paillette Elizabeth Patterson and Charles Coleman, with the laudable tale "Almost Married." Stories pertain to courtships, elopements or marriage, if they are on the humorous side, are always interesting to nearly every class of movie goer. That's why I believe you will get a lotta tummy jerks sitting this one out.

Here we are with Saturday slapping us right in the face. The "shooters club" is a little short on members during these hot summer Saturdays, but never-the-less

a goodly number of the old faithfuls will be there to gallop across the plains with Johnny Mack Brown when he and his rugged cowhands present "Fighting Bill Fargo."

This also is the opening chapter of "Jungle Girl," said to be a rip snorting serial in 15 episodes.

Before I sign off—Do you want to prolong or curtail this war? Let's get it over with! Buy bonds and stamps every week! So long—I'll see you at the movies—Mal.

A small donation will be appreciated to assist in erecting the honor roll for service men from the Pahokee Canal Point area.

A WOMAN AMONG MEN.

A friend asked Barbara Bryson if she was "keeping company" with anyone in particular.

"With about 160 men."

In a new picture she is making she is the only woman in the cast of principals in the company of 160 men. Even the script clerk is a man.

Too Late TO CLASSIFY

By Russell Kay

It is rather difficult to work up very much of a sweat in combining the attic for discarded bed water bottles or baby's supplies to throw on the national scrap rubber pile on the face of the government's

NOTICE TO OUR SAVINGS DEPOSITORS

In view of the fact that under present conditions we find it very difficult to safely invest funds we have deemed it necessary to reduce the interest rate heretofore paid in our Savings Department, therefore, effective July 1, 1942, the rate of interest paid on savings accounts will be 1-1/2 percent, compounded semi-annually.

BANK OF PAHOKEE

Now Is The Time To Fix Your Yard

PERTINENT POINTERS

For Cooking Appliances

Many trouble calls and repair bills will be avoided if you make sure that:

1. Fuses and fuse clips are tight;

2. Loose fuse contact or loose fuse clips cause heating of the wires and early failure.

3. Unnecessary strains on cords and lead wires are avoided.

4. Fuses are always firmly and fully inserted in their receptacles.

5. Switches are wiped free of grease and are properly lubricated.

6. Rough handling and twisting of thermoplastic is avoided.

For safety's sake, make certain your electrical appliances are properly grounded. Any competent electrician can check this for you. A wire from the frame of the appliance to a water pipe is a safe ground.

Why not plan now to trim your lawn and clear those ditches you've been thinking of doing for months?

Summertime brings weeds and rains. Time is heavy on your hands, so come to BETZNER'S HARDWARE STORE and get the necessary tools to do a bang-up job.

Cut your grass, get rid of summer weeds and your home will be more cheerful and you will be more happy after working your worries away.

BETZNER'S

"THE HARDWARE STORE"

"JUKE GIRL" POWER-PACKED DRAMA

The title of the picture, "Juke Girl," in itself speaks of the wrath and excitement of the story. The film features one of the most dynamic acting tris in Hollywood.

Ann Sheridan, Ronald Reagan and Richard Whorf. Sheridan, who recently scored such a grand hit in a difficult characterization for "Kings Row," follows it up with a different type but equally difficult role in "Juke Girl." She is cast as a girl to whom dancing means everything. Wherever there's music and gaiety, there you'll find Ann. When the picture opens Ann and her girl

friend, played by Faye Emerson, are working in a Florida tavern frequented by a bunch of gruff but friendly itinerant fruit and vegetable pickers.

The people are hard-workers by day and spend their nights trying to crowd every minute with enjoyment. Into this town come two pals, played by Ronald Reagan and Richard Whorf, looking for work. They are completely different emotionally and in their ideas of right and wrong.

When they first meet Ann Sheridan, Reagan and she are attracted to each other almost immediately, but Whorf doesn't pay much attention to her. They soon learn

ENCHANTING ANN SHERIDAN plays the role of a nickerd-and-dance girl in this exciting film, "Juke Girl." Showing Sun. Mon., July 12-13 at the Everglades and Tues., July 14 at the Prince theatres.

that Henry Madden, a role played by Gene Lockhart, who owns a large packing plant, runs the town's industry and to a large extent its social life. When anyone wanted a favor or a job they had

to see Lockhart or his cohorts.

A happy-go-lucky vegetable farmer, played by George Tobias, is neither happy nor lucky when Lockhart refuses to pay him a reasonable price for his produce.

JANET BLAIR—comparative newcomer to the screen, leaps to stardom with her performance as a tragic "tornado" in hectic "Two Yanks in Trinidad." Showing Sun.-Mon., July 12-13 at the Prince and Tues., July 14 at the Everglades theatres.

PAT O'BRIEN, BRIAN DON-LEVY IN "TWO YANKS"

When Pat O'Brien and Brian Don-levy "get mad" at each other, during the hectic unraveling of "Two Yanks in Trinidad," they reserve for themselves the right to knock each other's block off. And in that act, according to a delighted Hollywood, lies a major reason for the cheers and excitement, the fun and frolic and free-for-all flatulence of the new comedy.

The embattled warriors are in uniform while carrying on their own private feud, but they join forces readily as soon as a greater conflict intervenes, gladly renouncing "for the duration" their right to undisturbedly knock each other's block off.

"Two Yanks in Trinidad," is also distinguished by the stellar presence of lovely Janet Blair, comparative newcomer to the cinema scene, as a sultry cafe siren. She provides the added fuel which causes the O'Brien-Donlevy conflict to flare high, wide and handsome. Gregory Ratoff, himself a master of the comedy art, directed "Two Yanks in Trinidad" with thoughtful attention to its many thrilling and suspenseful sequences, so that the new film is said to emerge as a well-rounded example of motion picture entertainment at its best.

The first-singing stars are seen as erstwhile mobsters in Manhattan, who carry their feud into the torrid zone.

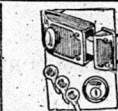

William Gargan, Jack Lee and Irene Hervey in "Bombay Clippies" Showing Wed. Thurs., July 15-16 at the Prince and Friday, July 17 at the Everglades theatres.

PICTURE HAS IRENE HERVEY OPPOSITE WILLIAM GARGAN. Featuring William Gargan and Irene Hervey in "Bombay Clippies." The production, one of the first of its kind ever-made, presents a thrilling mystery drama which transpires almost entirely aboard a giant passenger plane as wings its way from Bombay, India, to San Francisco, carrying all the principals in the mystery.

Gargan is cast as a newspaper reporter who becomes innocently involved in the mystery when he embarks aboard the clipper with his bride, played by Miss Hervey. Other well-known screen players in the cast include Charles Lang, Maria Montez, Mary Gordon and Lloyd Corrigan.

She: I'm a Venus de-Mila girl. He: Yeah? What's that? Girl: Hands off!

**THEY ALSO SERVE**

Telephone offices now proudly display service flags—as a patriotic tribute to those in the armed forces of the Nation.

Although the star figures in the center field of white show the number of Southern Bell men now in the armed services, the flag might also symbolize all Southern Bell employees—for all are wholeheartedly serving their country in this great world crisis.

The telephone, fittingly termed the nerve center of the Nation, is even more vitally important in war than in peace. Thus, the telephone men and women at home whose lives are devoted to its dependable and efficient function are definitely—in the war. All stand ready for emergency calls at any hour of any day—operators, linemen, construction men, repair men—everybody.

In or out of uniform, telephone folks are doing their war work—for they all serve, and the spirit of service was never more in evidence than it is today.
